Oleg Polin

Boston, MA | opolin@umass.edu | olegpolin.com | github.com/olegpolin | linkedin.com/in/olegpolin

Education

University of Massachusetts Amherst — **Amherst, MA**
B.S. in Computer Science, completed in 2.5 years — *Dec 2026*
M.S. in Computer Science (4+1 program) — *Expected Dec 2027*

Experience

CustomersFly — **Jul 2026 – Present**
Founding Engineer · customersfly.com — *Belmont, MA*
- Designed and built a repeat-customer platform for independent restaurants in SvelteKit, TypeScript, Tailwind CSS, and shadcn-svelte
- Designed the PostgreSQL schema and data layer (Drizzle ORM, Neon) and implemented auth with Better Auth
- Built the automated guest loop end to end: QR-card signup pages, welcome/reminder/review-request campaigns over email (Resend) and SMS (Twilio), and tracked short links for per-guest attribution
- Shipped the owner dashboard (signups, offer clicks, in-store redemptions, reviews) and a public demo mode

Ocrila — **Jun 2026 – Jul 2026**
Software Engineering Intern · ocrila.com — *Remote*
- Rebuilt the full frontend of an AI voice-agent product for restaurants in four weeks (marketing site, owner dashboard, and admin pages) in Next.js, React, and TypeScript; 95+ Lighthouse scores in every category
- Refactored the frontend for maintainability; extended the admin dashboard's data layer and backend API routes

News Into Action — **Nov 2025 – Feb 2026**
Software Engineering Intern · newsintoaction.org — *Remote*
- Built the prototype of a civic-engagement web app that turns news articles into concrete actions (SvelteKit, Tailwind CSS); it became the foundation of the product now in public beta
- Integrated the Perplexity API to generate media-bias and accuracy context for articles
- Set up Cloudflare Workers deployment workflows and analytics

Chestnut Ventures Group — **Jun 2025 – Aug 2025**
Software Engineering Intern · chestnutventuresgroup.com — *Remote*
- Designed and built the investor-facing site for a venture firm leading Pre-Seed to Series A rounds (SvelteKit, Tailwind CSS), scoring 100 in all four Lighthouse categories
- Set up Cloudflare Workers deployment workflows from git push to production

PathCision Medicine — **Jan 2025**
Software Engineering Intern · pathcisionmedicine.com — *Remote*
- Built and launched the company site for an AI-driven precision-therapeutics biotech (SvelteKit, Tailwind CSS); configured Cloudflare deployment with builds under 2 minutes

MakeAI — **Dec 2022 – 2025**
Co-Founder & Full-Stack Engineer · makeai.org — *Remote*
- Built the web app for a no-code, drag-and-drop AI model builder in Svelte, reaching 17k+ visitors
- Owned deployment and cloud infrastructure for the model-training backend on AWS, GCP, and Oracle Cloud

Projects

YourSplit · *SvelteKit, Supabase, Tailwind CSS, Groq API, Cloudflare Workers* — **yoursplit.com**
- Led a 4-person team building a web app for creating, saving, and sharing workout routines; live in production and open source
- Implemented Supabase auth (Google OAuth), PostgreSQL-backed routine storage and sharing, and an AI routine assistant via the Groq API; deployed to Cloudflare Workers

Open-Source Svelte UI Libraries · *Svelte, shadcn-svelte, Tailwind CSS* — **github.com/olegpolin**
- Published neobrutalism-svelte, material-svelte, and neoplasticism-svelte, component libraries built on the shadcn-svelte registry system, with 100+ GitHub stars combined
- Maintain a shadcn-svelte registry starter and a SvelteKit + Supabase starter template

Technical Skills

Languages: TypeScript, JavaScript, Python, Java, C, C++, SQL
Frontend: Svelte, SvelteKit, React, Next.js, Tailwind CSS, shadcn-svelte
Backend & Data: Node.js, PostgreSQL, MongoDB, Drizzle ORM, Neon, Supabase, Better Auth, Resend, Twilio
Cloud & DevOps: AWS, GCP, Azure, Cloudflare Workers, Vercel, Docker, GitHub Actions, CI/CD
